# DECKS CLEARED FOR ACTION

### Foreign Warships Expected the Greeks to Attack Canea.

### GERMAN CRUISER FIRED ON

Removed in Constantinople That the Katserin Augusta Got a Broads de From the Greek Ironclad Hydra. Coercive Measures Must Not Yet Be Taken Against Greece.

Canen, March 9 .- An attack by the Greek torpedo boats upon the town was expected Sunday night. The foreign warships extinguished their lights and prepared for action. The night, however, passed off Quietly in Canca, though there was an affair of outposts at Platania. Any hostrie action from the land side will meet with the energetic resistance of the Greek war ships, which still lie at anchor off this

The road to Sada is being strongly goard ed, in consequence of the menacing attitude of the insurgents. The foreign garrisons occupying Canen have been re-enforced. Owing to the unfavorable weather the landing at Selino of 550 foreign marines, with four guns, was only carried out yes terday evening.

## HYDRA MEANT BUSINESS.

### Fired a Broudside in Response to Kaiserin Acgusta's Signal.

Constantinople, Marca 9 .- According to a telegraphic communication received here from Crete a remor is current there that the German mondad Kaiserin Augusta, ofter having fired a blank stot as a signal to the Greek irenclad Hydra to disconti her course, received a full breadside from the Hydra.

Sunday was the last day of the Greek comival. A number of lastile demenstra tions were indulped in by the Greek popula tionhere, who paraded the town wearing the Greek national costume.

# GREEK NOTE TOO NEGATIVE.

### Powers Not Justified in Taking Immediate Action.

London, March 9.-The comm which Lord Salisbery wired to the powers last evening concerning the reply of Greece to the collective note of the powers, have resulted in the concarrence of France and Raty with Great Britain that coercive measures toward Greece should be delayed, and pegotiations cofitinged at Athens. A telegram received at the foreign office from Rome states that the Italian government considers the Greek note of too negative a tharacter to justify the powers in taking immediate action.

inspetches from official sources in Ber-In say that a certain measure of blockade of Greece must be observed, though it may not be immediately enforced. The form of blockade which Germany favors is some thing similar to that which was put into operation in 1886, which was pre-crul mently a peaceful blockade.

Under the German plan, as outlined in the Berlin dispatches, a fortnight should clapse before any action is taken. At the expiration of that time, a pacific form of blockade should be put into operation, under which any Greek or other vessel that may be arrested will not be confis-

The intest dispatches from Athens say that the fever of excitement is abating, an the city is becoming quieter. The Greek government has reason to believe that the moderate tone of Greece snote to the powers will be approved by the governments at Paris and London and oblige the powers Germany and Russin, in the opinion of the Greek government, will not act alone, and a halt on the part of the powers is believed to be assured.

Another disputch from Athens says that every available steamship in Greek waters has been chartered for the purpose of conveying war material to Thessaly. The reres, who have been summoned to arm by the government, are arriving by thou sands, amid the cheers of the populace, and are being hurried to the front.

A disputch from Candin, Crete, under esterday's date, says that a large number of Moslem women and children are confined in the hospital here suffering from mutila tion inflicted upon them by Christians. Moslems by Christians are of almost hourly occurrence. Out of 167 Mosiema in the village of Cykia, only one person, a

## ITALYS ATTITUDE.

### In Her Opinion the Powers Are Not Yet in Accord.

Rome, March 9. - The cablast met in cour ell this forenoon, the premier, Marquis Di Rodini, presiding, to discuss the reply of Greece to the collective note of the powers, and as the result of the discussion a communication was wired to each of the great powers, saying that, according to the opinion of Italy, the powers are

coercion, which should be directed against Greece and that nothing can be done until the constion is settled. The disputch further says that the for eign admirals in Cretan waters differ in opinion from Admiral Canevaro, commanding the Italian squadron and by reason of seniority directing the united fleet, wi reports that the mere blocknding of the Piracus would be ineffective. The united fleet, he says, must extend its operations

from the Piraeus to Volo, in The munication of the government to the powers adds that Italy will not enbut if there shall be any occupation of the island it must be a mixed occupation

## GREEKS EAGER TO FIGHT.

### Thousands Offer Their Services to Consul General Botassi.

New York, March 9 .- The Greeks in this country are intensely exthusiastic to return to the country of their birth and take up arms against the combined forces of all Europe, if necessary, to sustain King As the result of Council General Botassi's

The Greek newspaper Atlantis issued

dar stating that an arrangement had been made with the agents of the Atlantic line to take 560 Greeks to the Piraeus at the rate of \$24 a head, which is about sifthe usual fare.

According to the consul general, all Greeks in the clarses of reserves already called out by the government who full to join their colors are liable to imprisonment and a fine of \$200 if they should ever return to Greece, even though they be Amer tonn citizens.

### WAR THOUGHT INEVITABLE.

### Greece Harrying Preparations With All Possible Dispatch.

Athens, March 9 .- The reply of the Greek government to the ultimatum of the powers having been delivered to the foreign representatives here, preparations for hostilities between Greece and Turkey, which are apparently inevitable, are being burried forward with all possible speed. Crown Prince Constantine is about to start for the Turkish frontier to assume command of the Greek troops there and several Greek transports have landed great quantities of war material and large numbers of horses and mules at Volo, Thessaly,

It is reported that Greek bands have de stroyed a number of bridges on the railway between Monastir, the present headquarters of the Turkish army, and Salonica.

### ORDERED TO LEAVE.

## Admiral Canevaro Has Served No

tice Upon Greeks at Canea. Canca, March S .- Admiral Canevaro, emmanding the united fleet of the powers. has notified the Greeks here, including the Greek vice consul, that they must leave the island at once.

It is reported that the siege of Kan-damos has been raised, and that the Mussulmana who were beleaguered there, have moved to places of safety.

The insurgents made an attack upon the Turkish positions at Akrotini yesterday but were stoutly resisted by the Turks, and finally repulsed. The insurgents were reinforced during the pight, and renewed their attack upon the place today.

### VASSOS WILL REMAIN.

### The Gallant Greek Will Leave Crete Only as Victor.

Berlin, March 9 .- The Lokal Anxeiger publishes a report of an interview with Col. Vasses, the commander of the Greek army of occupation in Crete, in which he declares that he and all of his officers will leave Crete only as victors. Col. Vasso says he has 4,000 troops and sufficient am aunition, provisions, etc., to last through a six months' defiance of a blockade. At his bendquarters, he says, he has an ample larder and a large stock of excellent wines

"Though the Cretans, especially the weinen und children," Col. Vassca is quoted as saying, "have suffered through the blockade of the island, from lack of bread, they have had an abundance of meat and drink. The insurgents are well clad, and are excellent marksmen. They are armed with Martini rifles. If it should come to an open war, and the powers should reneutral, I could take Canea in four hours, and Candia and Retimo in a day."

### GREEK FORCES IN THESSALY They Number Only Eight Thousand

Men All Told. Vienna, March 9.-The Political Correspondence professes to have reliable information that Greece has only 8,000 troops in Thessaly, while the whole army effective there is only 14,000 men and mobilization of the available force will ealize barely 30,000 untrained troops.

## NONE BUT GREEKS CAN SERVE the Army.

London, March 9 -M. Skouzes, Greek minister of foreign affairs, has sent a telegram in response to numerous offers of Englishmen to take up arms in the Greek cause, saying that only Greeks

ire admitted to the Greek army. The list of British authors who have signed an address expressing sympathy with Greece includes Grant Allen. Justin McCarthy, Hall Caine, William Watson, Anthony Rope and Israel Zangwill.

## SANGUILLY NOT COMING.

## Senor Rodriguez Is Authority for

the Positive Statement. Senor Jose I. Rodriguez, Spanish trans lator for the Bureau of American Reput lics, and countel for Gen. Julio Sanguilly, is authority for the statement that Ger sungailty will not come to Washington for

the present. A Times reporter had a few moments' conversation with Mr. Redriguez at his office in the bureau with regard to Gen. Sanguilly's future plans this morning. "I see no good purpose that could be secured by his presence in Washington. and am sure that he will not come here.
Of his future movements, further than this, I do not care to say anything to the

newspapers." Senor Quesada was also seen. He stated that he had no knowledge of Sanguilly's

## EX-SENATOR DOLPH DYING.

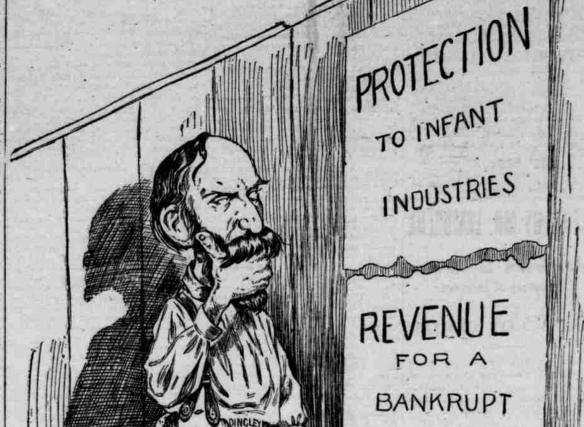

### Blood Poisoning, the Result of at Ingrowing Toe Nail.

Portland, Ore., March 9.-Hon. J. N Dolph, ex-United States Senator, is lying at the point of death at his residence in this city. Gangrene resulted from the to; nail, and although heroic measures were adopted to check the disease, they were wittout avail. A consultation among several lending surgeons was held late yes terday afternoon, and it was decided that the only means of saving the patient's lifelay in amputation of the leg. This was cone, but owing to the patient's advanced rears, it is feared he cannot survive the

Ex-Senator Doloh was born in New York nt once engaging in the practice of law, in which he was very successful. He was early recognized as being gifted with bril-liant professional attainments, a logical mind and strong character. Mr. Dolph roon identified nimself with the politics of this State. In 1882 he was elected to and during the ensuing twelve years of hin residence in Washington he was a prom-nent figure in the national Capital.

Two years ago he was dereated for reelection to the Senate, since which time
his health has steadily declined. His present critical condition was brought about
by the aggravation of a disease, diabetes,
from which he has suffered for years.

## No Foreigners Can Be Enrolled in Conspicuous Civil Service Notices in the Departments.

## HOW THE RULES OPERATE

Secretary Sherman Decides That Mr. Olney's Rules in This Respect Shall Stand-Applicants' Dreams of Foreign Travel Disturbed by Existing Regulations.

Posted conspicuously through the corridors of the State Department where of fice-seekers can scarcely avoid being confronted with the information, are peat placards, decipherable at a considerable distance, setting forth the fact that but nine positions in that Department are excepted from the civil service regulations; namely, three assistant secretaryships above classification, four mere laborers below classification, one private secretary to the Secretary of State, and the right to appoint one additional contidential clerk without examination.

This list, which greets the man out of a job with dismay, has already dwindled down to two places, the First and Third Assistant Secretaryships, for the mere la-borers are capable men of long service. The private secretary has already been appointed; the authorized confidential cle has never been and is not required, and Mr. Adee has been continued indefinitely as Second Assistant. The notices, although dated June 10, were printed March 1 and signed by Richard Olney, but Secretary Sherman has ruled that they are to stand, and so the office-seeker departs discon

A similar condition of affairs applies in the War and Navy Departments, where vacancies are apt to occur in desirable places, but if they do promotion from the next lower grade is the sole method of appointment. Under these circumstances the rush for places has already ceased in those Departments, and a strong contrast s presented to the conditions which usually revail with changes of adr

Twelve years ago, when the Democrati first appeared for twenty years and the slogan was "turn the rascals out," the iness of these departments was den ized for months by the terrific onslaught of victors after spoils. Eight years age the effort was almost as general, complicated by the efforts of the "outs" for re instatement, and when Gleveland returned in 1893 hundreds of applications for places were vigorously and personally pressed for a few weeks. Now, however, the ineffective rush has come and passed alto nthreedays, and the machinery of the great departments is grinding away without jar or friction, nor is any dispo-sition evinced by the authorities to have

In the War Department Gen. Alger ha taken as private secretary the stenogra-pher of the Fortifications Board, and the Assistant Secretaryship, now filled by Gen. Doe, is all that is left at his disposal, for which he is truly grateful. The only possibility in these three departments for re-warding political workers, lies in the highly improbable action of President McKinley by the executive order abolishing the exter sion of the classified service to cierical

The consular service, to which the party workers have hitherto tooked for comper sation, is also included in the class to which examinations are pre-requisite, as far as concerns all consulates or commercial agencies, the salary of which is not more than \$2,500, including fees, or less than \$1,000. these amounts including nine-tenths of

them. Elaborate circulars detailing all the orders and regulations affecting the permanency of the consular service and the restrictions to entering it are being distributed freely by the State Department through Congress men and those who claim to have influence with the effect of totally deterring the greater portion of applicants who have had dreams of foreign travel and solourn and those who personally seek Secretary Sherman learn additionally that he intends not only to enforce these regulations, but gradually to extend them above and below

## Secretary Sherman Received Number of Visitors.

## COMMISSIONER OF PATENTS

N. L. Frothingbam Looms Up as a Promising Candidate for the \$5,000 Place-Gen. Bussey's Chances-Contest Over the Assistant Secretaryship of Navy.

The heads of departments were busy this norning in arranging for the first regular Cabinet meeting, and consequently devoted as little time as possible to visitors. Senators were in evidence, and Representatives also, and these obtained audiences, but as a rule those who sent in cards to most of the Secretaries were politely asked to

call again. Secretary Sherman received a number of visitors, mainly on business. Among others who called was the Hon. L. F. McKinney the United States minister under the last administration to the republic of Colohrbia. Mr. McKinney is still acting as the representative at that court, but, as he remarked, has exceeded his leave, and is now serving gratuitously.

He speaks in glowing terms of his experience at Bogota, and says his successor will find life very comfortable there. The capital of the republic is 9,060 feet above the level of the sea, and the climate is all that can be desired,

Mr. McKinney said he called on the President this morning and informed the executive that his resignation awaited acceptance, and that there is at least one office which he need have no hesitation in filling at once. Mr. McKinney served in the Fifty-second Congress. He has been at Bogota nearly four years. Representative Hull of Iowa had an in-

terview with Private Secretary Babcock It was not his wish to disturb Mr. Sher man, but he left a package of papers for his

Mr. Hull says the whole Iowa delega tion is backing Hon. E. H. Conger for the Brazilian mission. The State has no other prominent position in view, and it is un-derstood, that Mr. Congers is the only Iowa man who has the State delegation in both branches of Congress as a unit in his favor. There is believed to be no doubt of success in placing the aspirant for the Brazilian mission in the place or some other equally as good. He has formerly served this country in Brazil. Dr. Charles W. Zaxemba, of Chicago, wh

claims to be "originator of the World's Columbian Exposition," and the "father of reciprocity," called at the State Department this morning to discuss policy with Secretary Sherman. It was Cabinet day, and a fitting opportunity did not occur. Dr. Zaxemba is a Russian by birth? but he is now, he says, an American through and through. He is very much interested in the establishment of reciprocal tariff relations with the South American states, and believes that eventually the United

He had the support in his previous appointment of Senators Hoar, Hale and Platt, and will add to these at this time several other members of the New England delegations in Congress.
On the other hand, Gen Butterworth,

who held the place in 1885, is looking for duties less arduous and confining. He knows the work connected with the posi-tion and, it is raid, could not afford to exchange his law practice for it.

Gen. Cyrus Bussey is talked of for Assistant Secretary of the Interior. He was active in the campaign and has the confidence of the new powers. He has also the support of the Grand Army for this post tion or some other that may be preferred for him. The pay is \$4,000 a year.

No changes were made public in the In-terior Department during the morning. Secretary Alger had more callers to ay probably than any other member of the Cabinet, and he tries to see them all. Like his colleagues, however, he was obliged to give a portion of his time to Cabinet There is quite a lively contest over the

assistant secretaryship of the Navy, but notwithstanding the push, it is said, there will be no change in the office for a week or ten days. Secretary Long, who has the selection at his disposal, listens patiently to the appeals made for favorites, to which the favor of State pride, and the assertion of State rights in the distribution of dums, add unusual vigor and carnestness. Chief Clerk Peters, of the Navy Depart ment, entered upon his duties as such to-day, his promotion to the post having been ordered yesterday. Private Secretary Phin-

ncy was also on duty at his old desk with a new commission Representative Dingley, of Maine, chairnan of the Ways and Means Committee, accompanied by the Republican members of the committee, paid their respects to Secretary Gage today.

# WEYLER'S WAR ON WOMEN

## Orders All Suspected to Be Tried by Court-Martial.

If He Had His Way He Would Kill Them First and Try Them Afterward.

New York, March S .- A special to the World from Hayana, via Jacksonville, Fla., says: Gen. Weyler has issued an order di recting that hereafter all women arrested in Cut a, who are called "suspicious," shall be tried by court martial. While the penalty is not publicly stated, It is supposed that if the women are found guilty the death penalty will be imposed. The issuing of this order has been protested against by some of the foreign consuls. Gen. Weyler says, it is asserted, that the women are hardest to subdue and if he had way he would kill them first and try

them afterwards. A kinsman of the first president of the republic has been arrested and treated in imprisoned in a small cell, six by nine, and kept incommunicado one hundred days. He had only one meal a day, slight at that, was reduced to a skeleton by in human treatment and is now dying from

### Populace Still Agitated Over the Death of Col. Moreira.

Rio de Janeiro, March 9.-The ex eltement occasioned here by the receipt of the news yesterday of the defeat and death of Col. Moreira Caesar and 200 of his soldiers by a band of fanatics under Consetheiro at Canudas, in the state of Bahia, on March 3, has somewhat abated, though the streets are still filled with people, who only need a determined leader to incite them to renew disorder.

The attack upon the offices of three monarchist newspapers at Sao Paulo and one in this city, all of which were wrecked and pillaged and afterward set on fire, was used by the belief of the mobs that the monarchists were assisting Conseibeiro.

Cot. Gantil Castro, director of the moarchist newspapers Gazeta Da Tarde and Libertade, whose offices were looted and burned, has been assassinated, and Viscount Ourapreto, a prominent monarchist, was also attacked, but escaped with slight injuries. The offices of newspapers of monarchist opinions are being guarded by troops. A regiment of artillery has been sent to Bahla.

### Detectives After the Footpad. Inspector Hollinberger today assigned Detectives Boyd, Helan and Lacey to case of George H. Had a Remarkably Pleasant Chat With the President-Murat Halstead May Be Sent to Caba or Persig-All the ex-Congressmen of Missouri Are After Office.

There were not a great many callers at the White House today, especially when ompared with the great crowds which have been there since the day of the President's auguration. This being Cabinet day, there was naturally a most decided simup in the

number of visitors. Among the early callers were Senatora Allison, Cullom, Hawley, Elkins, Teller, Pettigrew and Cannon, the latter three be ing some of those who walked out of the St. Louis convention.

They were received by the President in the pleasantest possible manner, just as though that incident had been forgotten. Judge Wood, the newly appointed Senator from Kentocky, came alone, and was so modest that he did not go to the President's room, but was content to spend the time in talking with the private secretary. Repre-sentative Hitt and Murat Halsfend called

together. Powell Clayton, of Arkansas, had a tenminutes talk with the President presumably upon the subject of the Mexican mission, which is to be given him. A delegation from Missouri, the only delegation which called during the day, was received, but stayed only a few moments, as the President was at that time preparing to go to

he Cabinet meeting. All the Missouri ex-Congressmen want places. Mr. Hubbard, who retired from the last Congress, is a candidate for director of the Pacific railroad: Burton, alco an ex-Congressman, has his engle eye on the district attorneyship for the vestern district of Missouri: Mr. Crowtner is after the Corean mission, and Mr. Trefor is asking for the place of headsman n the Postoffice Department.

As the time was limited, neither of the applicants had an opportunity to speak to the President on the subject, so very dear to them, and as a result there was

nuch disappointment. Mr. Halstend is an applicant for some position, but what it is to be is guarded with great secrecy.
